RAMKUMAR RAMAR

Full Stack Developer | MERN | Next.js
Chennai, Tamil Nadu, India | +91 9159473634 | ramkumarramar2237@gmail.com
linkedin.com/in/ram-kumar04 | github.com/ram99-ux

PROFESSIONAL SUMMARY

Full Stack Developer with professional experience building, deploying, and maintaining scalable web applications across the MERN stack and Next.js. Skilled in React.js, Node.js, Express.js, MongoDB, and MySQL, with a strong command of REST API design, JWT and OAuth 2.0 authentication, and responsive UI development. Experienced in end-to-end delivery, from client requirement gathering through Linux VPS deployment using PM2, Nginx, and Webmin on AWS. B.E. Computer Science graduate who has shipped production client projects to deadline within Agile teams.

TECHNICAL SKILLS

Languages: JavaScript, SQL, HTML5, CSS3
Front-End: React.js, Next.js, Redux, Bootstrap 5, Material UI, Responsive Design
Back-End: Node.js, Express.js, REST APIs, MVC Architecture, JSON
Databases: MongoDB, MySQL
Auth & Security: JWT, OAuth 2.0, bcrypt, Role-Based Access Control (RBAC)
Cloud & Deployment: AWS, Linux VPS, Nginx, PM2, Webmin
Tools: Git, GitHub, Postman, Thunder Client, VS Code, Eclipse
Methodologies: Agile, Scrum, SDLC, OOP

PROFESSIONAL EXPERIENCE

Full Stack Developer — Mar 2026 - Present

Push Digital

- Develop and maintain 12 production web applications using Next.js, React.js, Node.js, and Express.js, integrating REST APIs with MongoDB and MySQL data layers.
- Deploy and manage client applications on Linux VPS infrastructure, configuring Nginx as a reverse proxy, PM2 for zero-downtime process management, and Webmin for server administration.
- Optimize front-end performance through server-side rendering, code splitting, and asset optimization in Next.js, cutting page load time from 5s to 2s (a 60% reduction).
- Implement secure authentication and authorization flows using JWT and OAuth 2.0, enforcing role-based access control across 30+ protected API routes.
- Integrate transactional email services and troubleshoot production incidents, resolving issues within a 4-hour turnaround.
- Collaborate directly with clients to gather requirements, scope features, and deliver 3 projects to deadline within an Agile workflow.

Full-Stack Development Intern — Feb 2025 - Dec 2025

Besant Technologies, *Anna Nagar*, *Chennai*

- Built full-stack applications using React.js, Node.js, Express.js, MySQL, and MongoDB, following MVC architecture and RESTful API design principles.
- Designed and tested 30+ CRUD API endpoints with Postman and Thunder Client, debugging request and response cycles to resolve integration defects.
- Applied Agile and Scrum practices alongside Git and GitHub version control, participating in peer code reviews.

Web Development Intern — Aug 2024 - Sep 2024

Ladybird Web Solutions Pvt. Ltd., *Dharmapuri*

- Developed a responsive e-commerce website from design specifications using semantic HTML5, CSS3, and JavaScript.
- Engineered mobile-first, cross-device layouts that render consistently across major browsers and screen sizes.
- Optimized page structure and static assets to reduce render-blocking resources and improve page load performance.

PROJECTS

Client Web Applications

Next.js, React.js, Node.js, Express.js, MongoDB, MySQL, Linux VPS, Nginx, PM2, Webmin

- Contributed to 12 client web applications, delivering 3 end to end from requirement gathering through development, deployment, and post-launch support.
- Provisioned and configured Linux VPS environments with Nginx reverse proxy and PM2 for zero-downtime restarts.
- Administered live servers through Webmin, handling domain and server configuration alongside routine maintenance.
- Optimized website performance and integrated email services enabling automated client-user communication.

Student Information Management System

Node.js, Express.js, MySQL, JWT, bcrypt, HTML5, CSS3, JavaScript

- Engineered a full-stack student records platform replacing manual, paper-based record-keeping with a centralized, searchable system.
- Implemented role-based access control across three tiers (Student, HOD, and Management) using JWT, ensuring each role views and edits only permitted data.
- Secured credentials with bcrypt hashing and protected every private route with token-verification middleware.
- Designed RESTful CRUD APIs for student, department, and user records, validating each endpoint with Thunder Client.

AI Tourist Guide & Itinerary Planner

React.js, Node.js, Express.js, OpenRouter AI (LLM), Bootstrap, JSON

- Built an AI-powered travel planner generating day-wise itineraries with cost estimates from a single user request.
- Integrated OpenRouter LLM APIs into a Node.js backend, engineering structured prompts enforcing strict business rules on budget, pacing, and geography.
- Implemented JSON schema validation on model responses, rejecting malformed output and preventing render failures from unpredictable AI results.
- Developed a responsive React.js and Bootstrap front end with dynamic rendering and graceful API error handling.

EDUCATION

B.E. Computer Science & Engineering 2025

Jayam College of Engineering and Technology, Dharmapuri | CGPA: 7.29 / 10.0

Higher Secondary (HSC) 2021

Govt. Hr. Sec. School, Dharmapuri | 84.5%

CERTIFICATIONS

- Full-Stack Development - Besant Technologies, Oct 2025
- The Complete Web Development Bootcamp - Udemy (Dr. Angela Yu), Jan 2025
- SQL (Advanced) - HackerRank, Mar 2025
